Declarative Directives 17-18

**Directive 17**  
Due to the present fentanyl crisis and other assaultive, murderous and gang-related intrusions from the domestic and foreign born Spaniard and Negro I asked that empowered state and federal executives and any court-appointed master/independent reviewer of monitor reassign prison-, jail- or hospital-based nurses or psychiatrist to non-medical duties. No medical attire such as scrubs should be worn while conducting reassigned job functions.

**Directive 18**  
No involuntary needle injections are permitted against state or federal prisoners/jailed inmates, state-, federally-funded hospital residents. Emergency Management Technicians are not allowed to possess needles; sedatives and tablets, some each costing more than \$1800 per month, are to be purchased at a rate of 70% less than 2022—that is the decimal .70 times the total documented expenditure for 2022. It is my belief that factories have undergone attrition, early retirements and terminations. making pharmaceuticals and alcoholic beverages/depressants even more dangerous
